INDUSTRY

Multi-Trade ApS

Multi-Trade ApS specializes in supporting the Shipowner and Shipmanagement companies, in providing ship spares within a wide range of marine equipment available at ONE point and shipped worldwide through a network of freight forwarders on all continents.

Thanks to our direct connections to makers and alternative suppliers Multi-Trade are able to offer genuine spare parts and complete marine equipment of International and local producers and deliver from us to the global market. Thanks to our successful cooperation with both producers and suppliers we are able to offer competitive prices and short delivery time.

MARITIME ENERGY EFFICIENCY. Our approach to energy efficiency has been developed over many years of experience. We have several solutions with affordable payback time due to our unique insight in the marine, industrial and offshore systems.

From switchboards to lighting

We have over 25 years of experience within the Marine and offshore sector thus enabling us to find suitable replacements for obsolete parts. With this experience across such a wide range of brands together with our connections to specialist component manufacturers, all over the world, we are an excellent source of independent advice and trouble shooting.
